

## Searching Instagram from the D&CPG Website

Open the [www.dcp.org.uk](http://www.dcp.org.uk) website.

Scroll down to the Instagram details at the foot of the page.

Enter Instagram by clicking the mouse pointer on any of the points shown by the arrows below.

**@THEDCPG**  
Dacorum & Chiltern Potters Guild provides members with monthly meetings and yearly Open Day with demonstrations. Visit our new website.

**THE WOOD FIRING**  
April 28<sup>th</sup> 2018

The first batch of photos of Potters Open Day, taken by the talented Ben Boswell - Potters

Yesterday it was the Potters Open Day of Dacorum and Chiltern Potters Guild. This is a really well organised event that draws a good

This brings up the following screen, with a “Search” box as shown by the arrow.

The screenshot shows a web browser window with several tabs open, including 'Laverne's Just Added...', 'PJ Harvey & Harry Escot...', 'Dacorum & Chiltern Potters ...', and 'DCPG (@thedcpg) • Instagram...'. The search bar at the top of the browser contains the text 'Search'. Below the browser window, a red arrow points to the search bar on the Instagram mobile app interface. The search results for 'thedcpg' are displayed, showing a profile picture of a person in a dark room with a bright light source. The profile name is 'thedcpg' with a 'Follow' button. Below the name, it shows '198 posts', '189 followers', and '43 following'. The bio reads: 'DCPG Dacorum & Chiltern Potters Guild provides members with monthly meetings and yearly Open Day with demonstrations. Visit our new website. [www.dcp.org.uk](http://www.dcp.org.uk)'. Below the bio, there are three featured posts: a pink poster with the text 'THE WOOD FIRING', a collage of photos showing pottery-making activities, and a poster for 'Potters Open Day Saturday 24 February 2018 9:30-17:00' with a 'Programme' list.

POTTERS GUILD	
<b>Potters Open Day</b>	
Saturday 24 February 2018	
9:30-17:00	
<b>Programme</b>	
09:30	Opening Address
09:45	Duncan Hooson
10:45	Coffee break
11:15	Takeshi Yasuda
13:15	Lunch
14:30	Raffle

If you wish to find a Person on Instagram, preface the name with @,  
and if you wish to find an Area of Interest preface the name with #, similar to Twitter.

Type the name @floriangadsby, note no spaces, into the search box as below

Accept the **floriangadsby** in the drop down box below the search box.

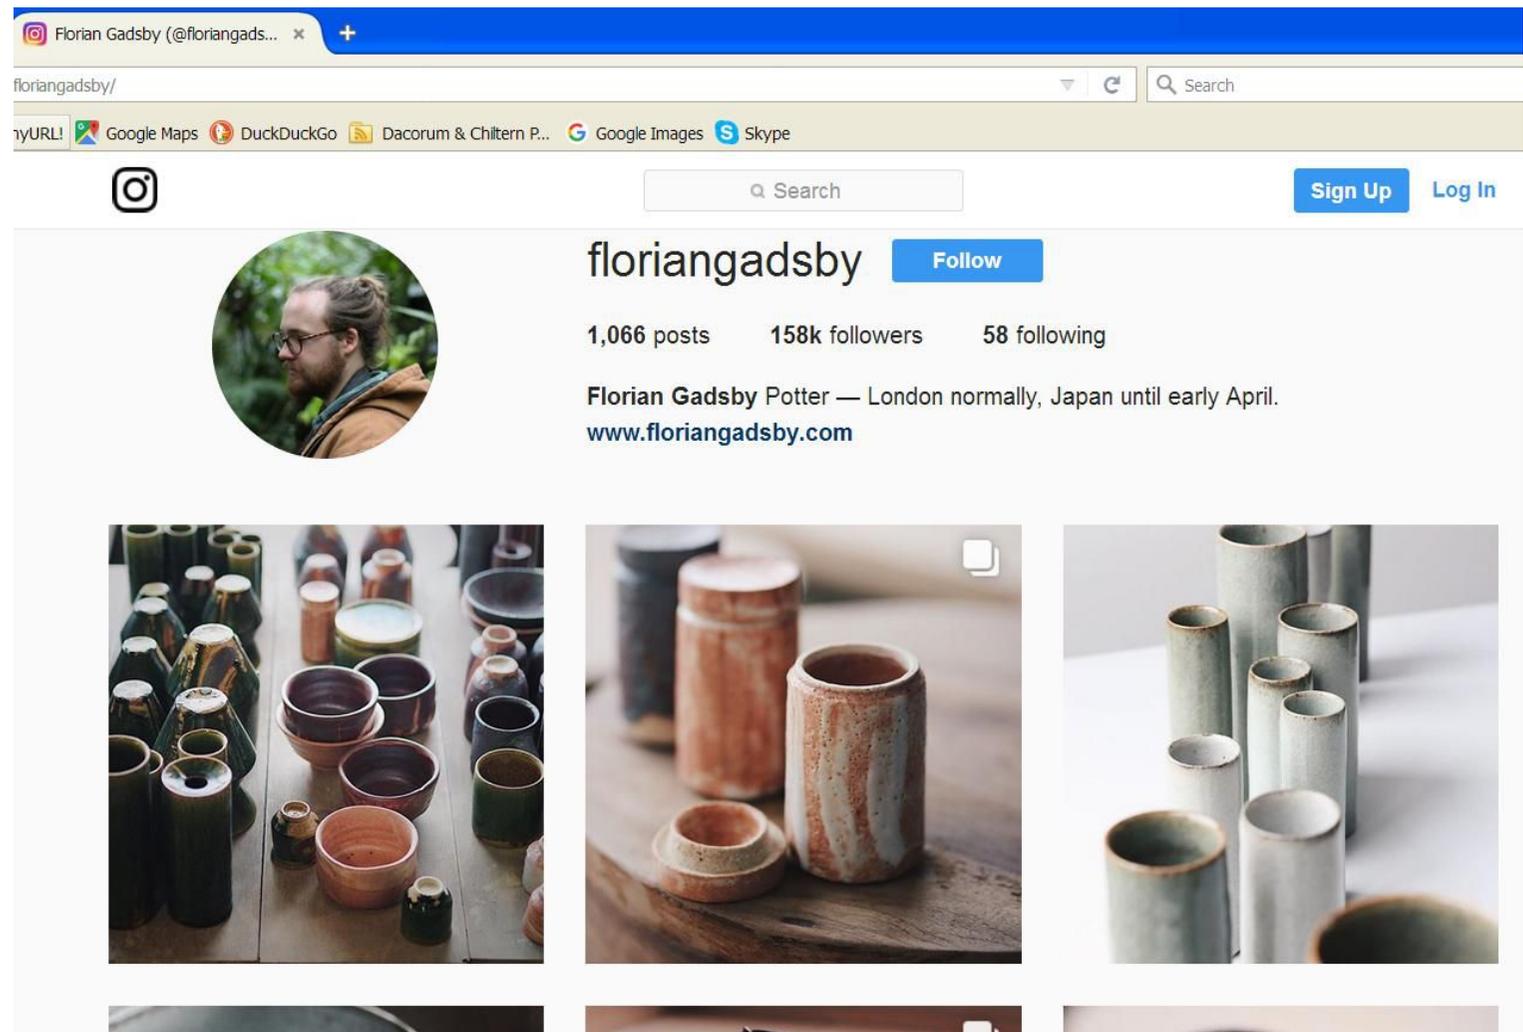

The screenshot shows a web browser window with the Instagram search interface. The search bar contains the text '@florianGadsby'. A dropdown menu displays four search results:

- floriangadsby** Florian Gadsby (highlighted with a red arrow)
- gadsbyflorian2502**
- gadsbyflorian312**
- gadsbyflorian796**

Below the search results, there are several images:

- A circular image showing a person working in a kiln.
- A pink sign with the text "THE WOOD FIRING".
- A collage of images showing pottery-making activities.
- A poster for "Potters Open Day" on Saturday 24 February 2018, 9:30-17:00. The programme includes: 09:30 Opening Address, 09:45 Duncan Hooson, 10:45 Coffee break, 11:15 Takeshi Yasuda, 13:15 Lunch, 14:30 Raffle, and 14:40 Enter Back.

This brings up Florian's bio screen. As you can see, he has 158,389 followers (at the time I write this). I don't know of any other potter with this sort of following.

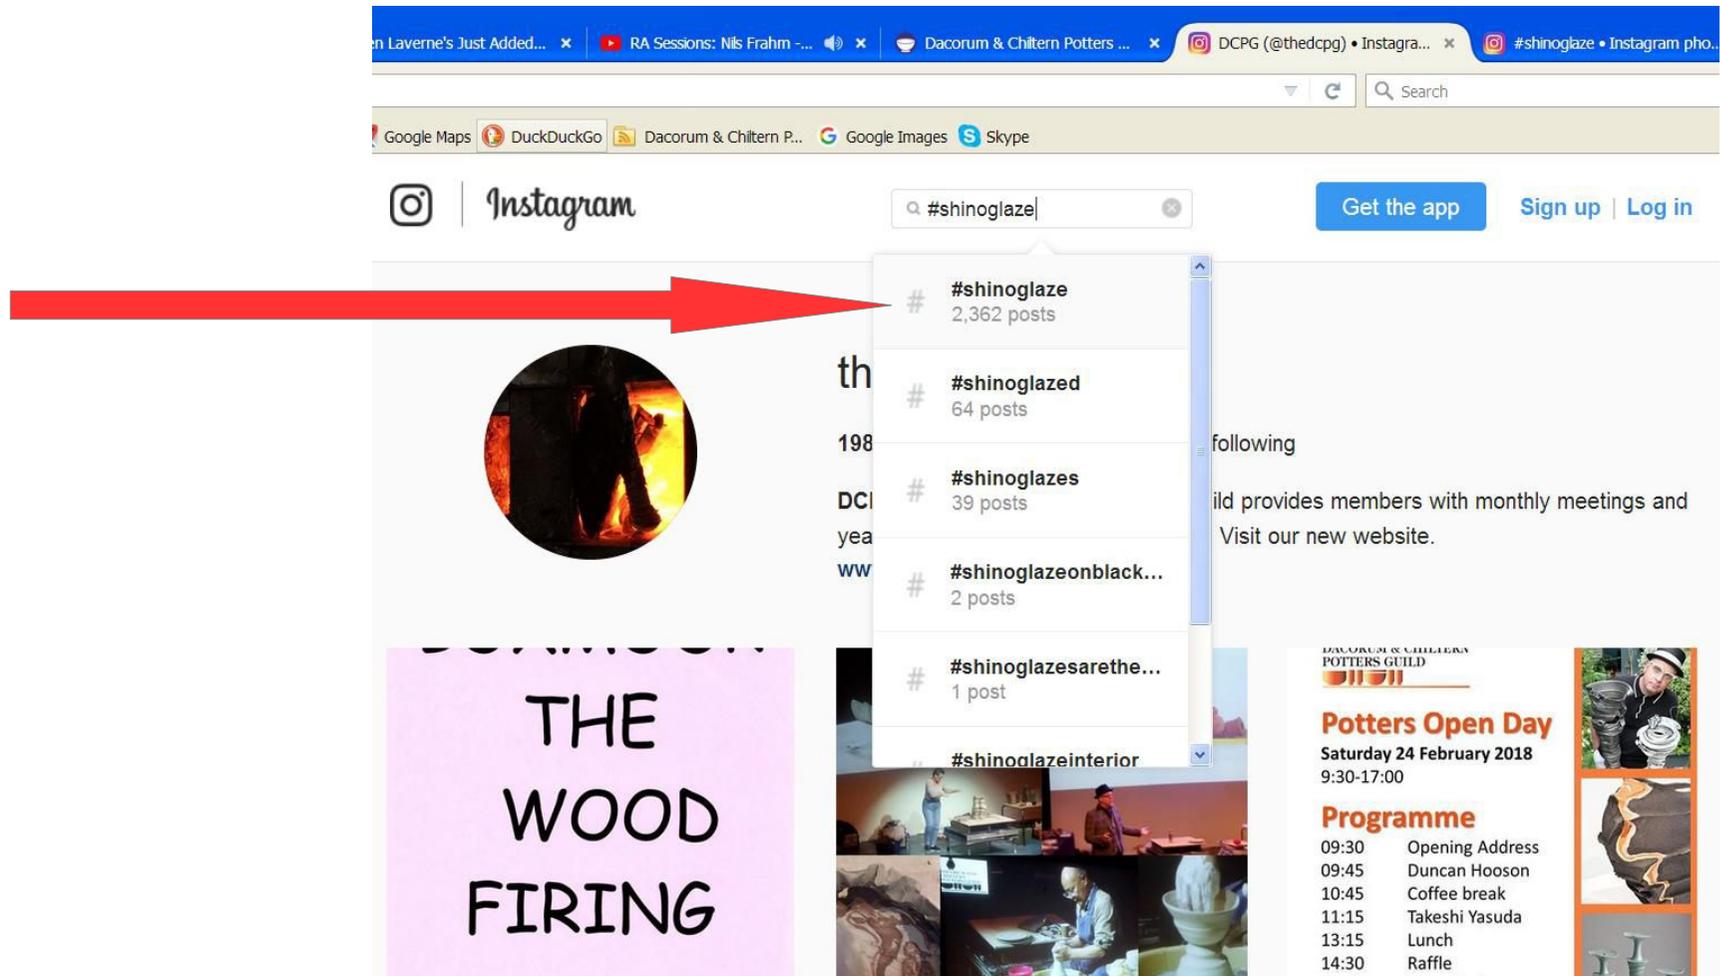

You are now able to click on any of his posts to get more detail. This could take you some time as Florian posts mainly every day and includes a couple of hundred words on each post. As you can see from his bio, he is currently in Japan with Ken Matzusaki, on a work placement, and has been producing some really nice shino ware.

There are many other potters you may be interested in @steve\_harrison\_pots, @lisahammondpottery, @claycollege, @mattblakelypottery, @robinwelchceramics, @bizen\_kazuya, @kigbearepottery etc. And for something more exotic @jishang880829, @masakidejima (he was one of Lisa Hammonds apprentices), @unzickerpottery, @kwak\_kyungtae and many, many more.

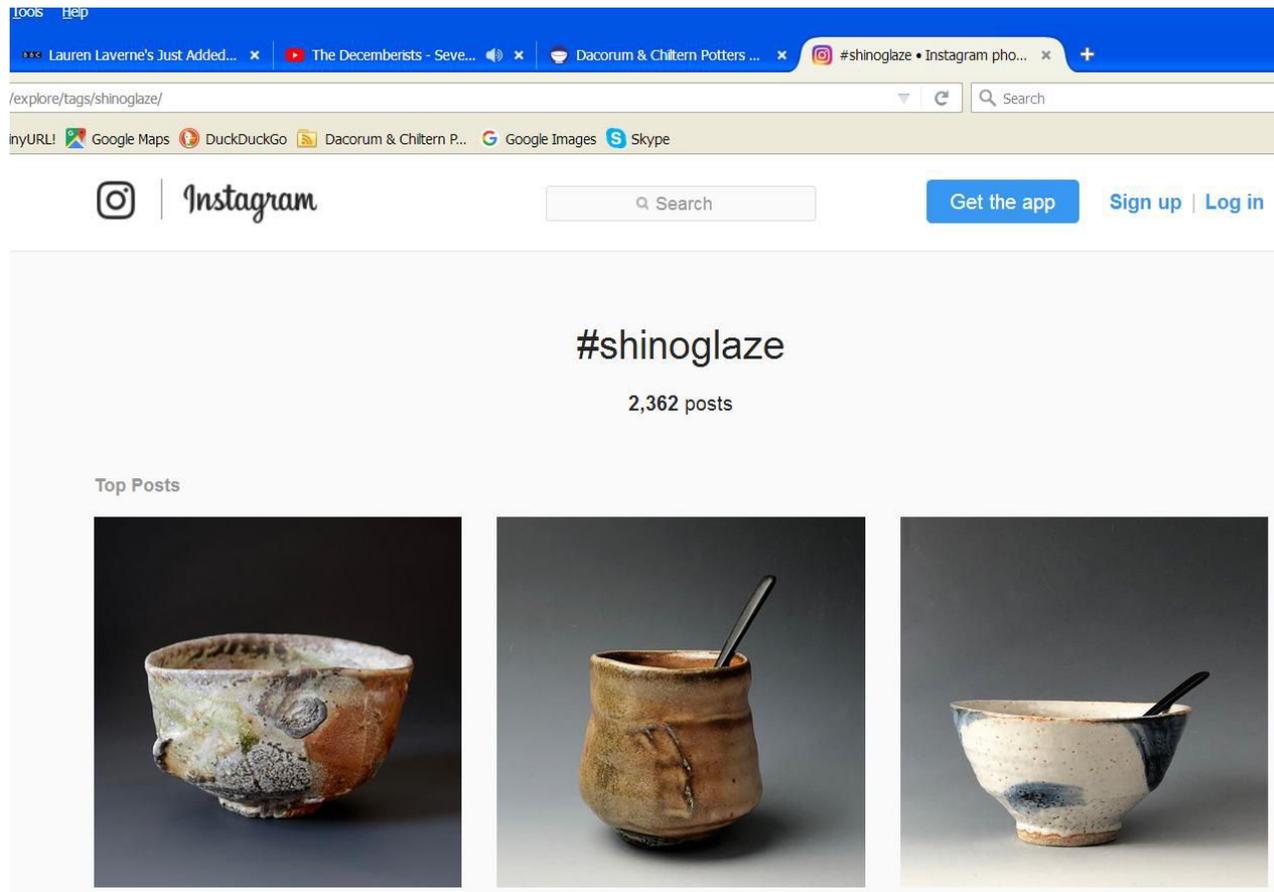

### To find an area of interest,

Type in the search box #shinoglaze as shown by the arrow. This creates a drop down list of other pertinent hashtag (#) envelopes.

Accept the one you wish to see. In this case we will stick with #shinoglaze.

This opens up the #shinoglaze envelope. As you can see, there are 2,362 posts containing pots that have been tagged as having a shino glaze.

You could equally search for #tenmoku #tenmokuglaze #celadon (this ones not so good) #celadonglaze #shino (not so good ) You could of course, search for #thedcpg, #majolica #woodfiredkilns #handmadeceramics etc.

You are also able the click on the hashtags noted in some of the posts, and that will also take you through to the relevant envelope.

## Using a phone

The above procedure I carried out on a desktop, and I presume it also works the same for a laptop.

For a phone it is slightly more complicated. This is what I do on an Android device.

1 Go into the Browser

2 If you haven't already got it saved as a favourite, type [dcpq.org.uk](http://dcpq.org.uk) into the URL box and accept the Dacorum & Chiltern Potters Guild when brought up.

3. This opens the website, scroll down to the Instagram section and tap on the Instagram symbol. This brings up a box saying complete action using Instagram once only. Tap on this.

4. This brings up the Guilds Instagram bio page. At the very top of the page there is a left arrow, tap on this arrow.

5. You are now in the live feed and at the bottom of the page, there is a magnifying glass shape search symbol. Tap on this to bring up the Instagram search screen and then type in the person or hashtag you want in the Search box, in the same way as shown above for the desktop.

**Hours and hours of interest.**
